KITCHENS & BARS

2026 BROCHURE

OUTDOOR LIVING. TRANSFORMED.

With decades of experience in kitchen design, manufacture, and installation, our family-run business set out to create something truly different - outdoor kitchens and bars that not only look incredible but which also deliver exceptional performance in everyday use. Handcrafted in our own workshop, Elevate are modular, self-contained kitchen pods that brings together intelligent design, robust materials, and real-life practicality.

Delivered as ready-to-use pods, they require no major groundwork or messy construction. Whether you want a plug-and-play setup or a fully connected kitchen with electrics, plumbing, and premium appliances, we make it refreshingly simple.

From **£8,995** including delivery & on site assembly

ELEVATE YOUR ENVIRONMENT

We're not just another outdoor kitchen supplier. With deep-rooted experience in construction, interiors, and furniture design, we set out to create something that truly stands apart. While many outdoor kitchens depend on partial shelter or compromise on materials, Elevate is built from the ground up to be fully weatherproof - without sacrificing style or usability.

Our expertly engineered outdoor kitchens and bars are crafted from premium, weather-resistant materials and feature an innovative lifting roof for all-season enjoyment. Each Elevate pod is custom-made within 4-6 weeks (longer for bespoke/non-standard pods) and installed by our expert team. Whether your garden is ready or you require help with foundations and electrics, we can help with every detail ensuring a seamless, stress-free experience.

EXPERIENCE ELEVATE

Come and experience Elevate for yourself at our dedicated display at either Coton Orchard Garden Centre in Cambridge or Van Hage Great Amwell in Hertfordshire (from Easter 2026).

It's the perfect opportunity to see the quality of our craftsmanship up close and appreciate the detail, premium materials, and thoughtful design behind every Elevate Outdoor Kitchen & Bar. Explore its features, visualise how it could transform your own garden, and get a true feel for how Elevate works in real life.

*(services not included)

INCLUDED. AS STANDARD.

Every Elevate includes all kitchen furniture & worktops, an integrated gas BBQ and re-chargeable LED Lights as standard. If you do, however, require something different, bespoke options are available.

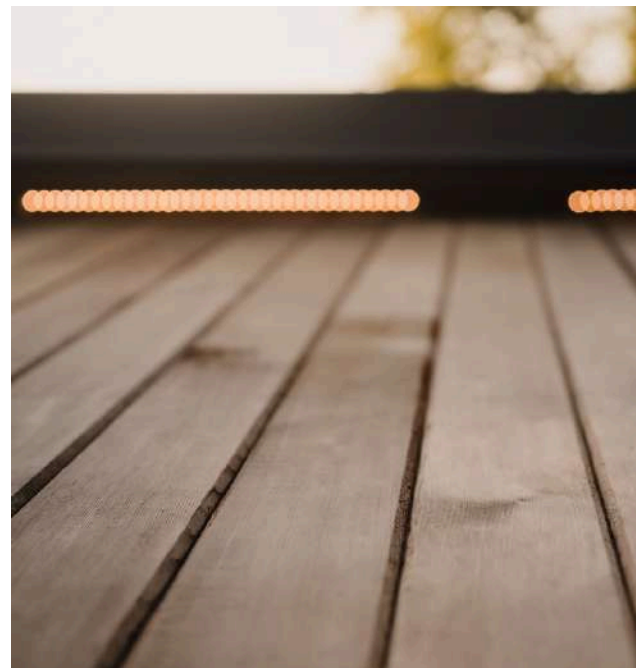

KITCHEN FURNITURE & WORKTOPS

Our cabinets are built to withstand the British weather. Spacious storage means everything is neatly tucked away.

INTEGRATED GAS BBQ

Our powerful gas BBQ gets up to temperature in seconds. Perfect for everything from quick midweek meals to weekend feasts.

RE-CHARGEABLE LED LIGHTS

Our LED lights keep your space glowing after dark. Re-chargeable and cable-free for ultimate flexibility. Or, if you have an outside socket, we can add mains lighting for you.

OPTIONAL EXTRAS

FRIDGE

Our compact and spacious fridge means cold drinks are always on hand. Perfect for parties, BBQs or quiet evening drinks.

SINK & TAPS

Our sleek stainless steel sink makes outdoor clean-up simple. Rinse fresh produce, wash hands or tackle the post-BBQ clear-up.

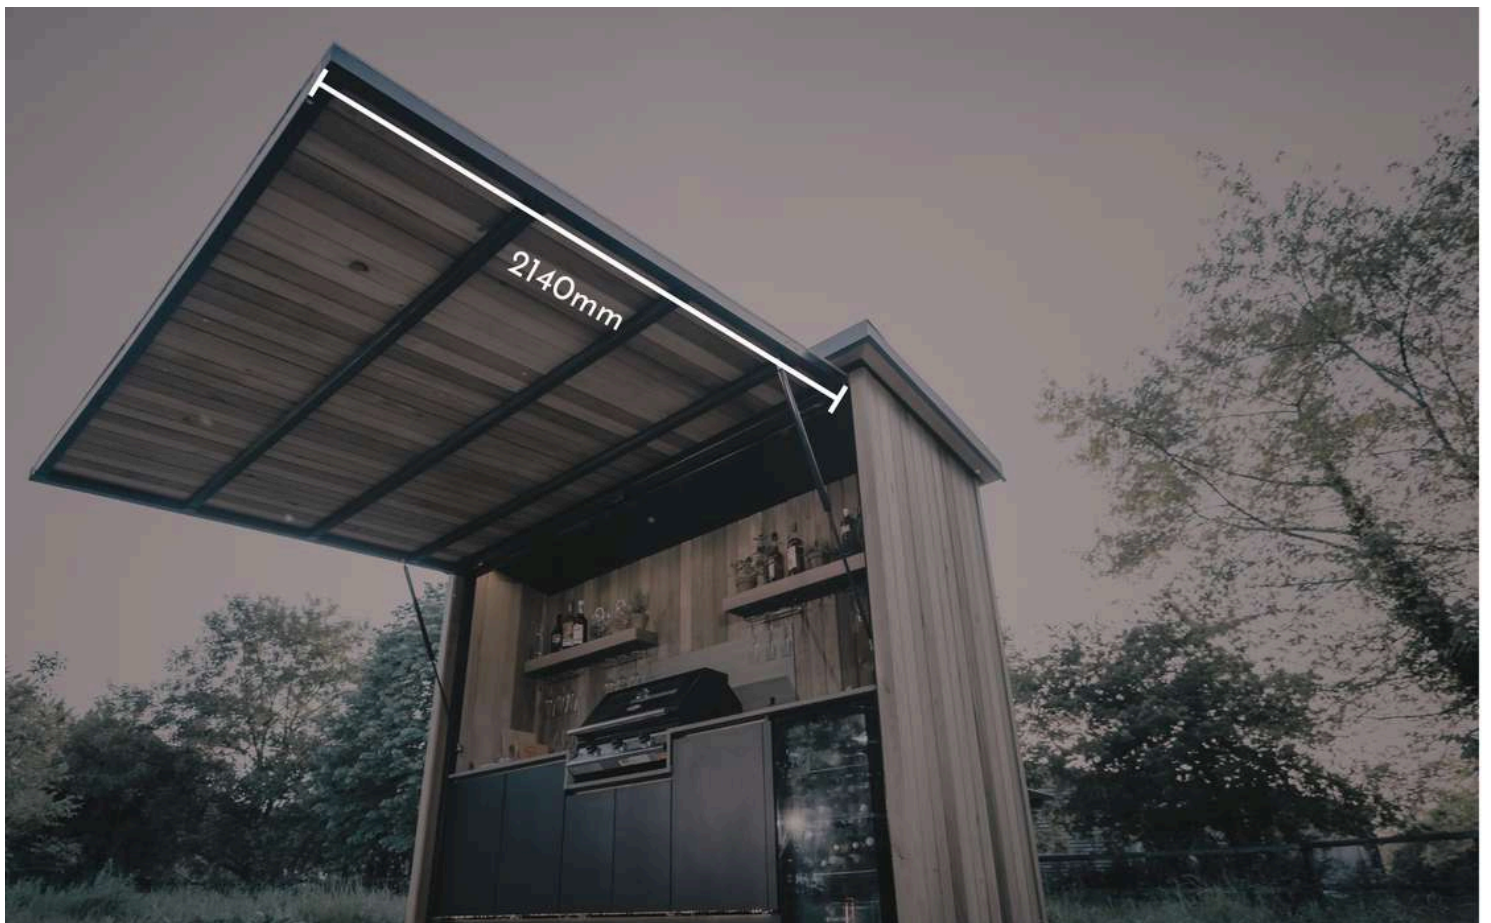

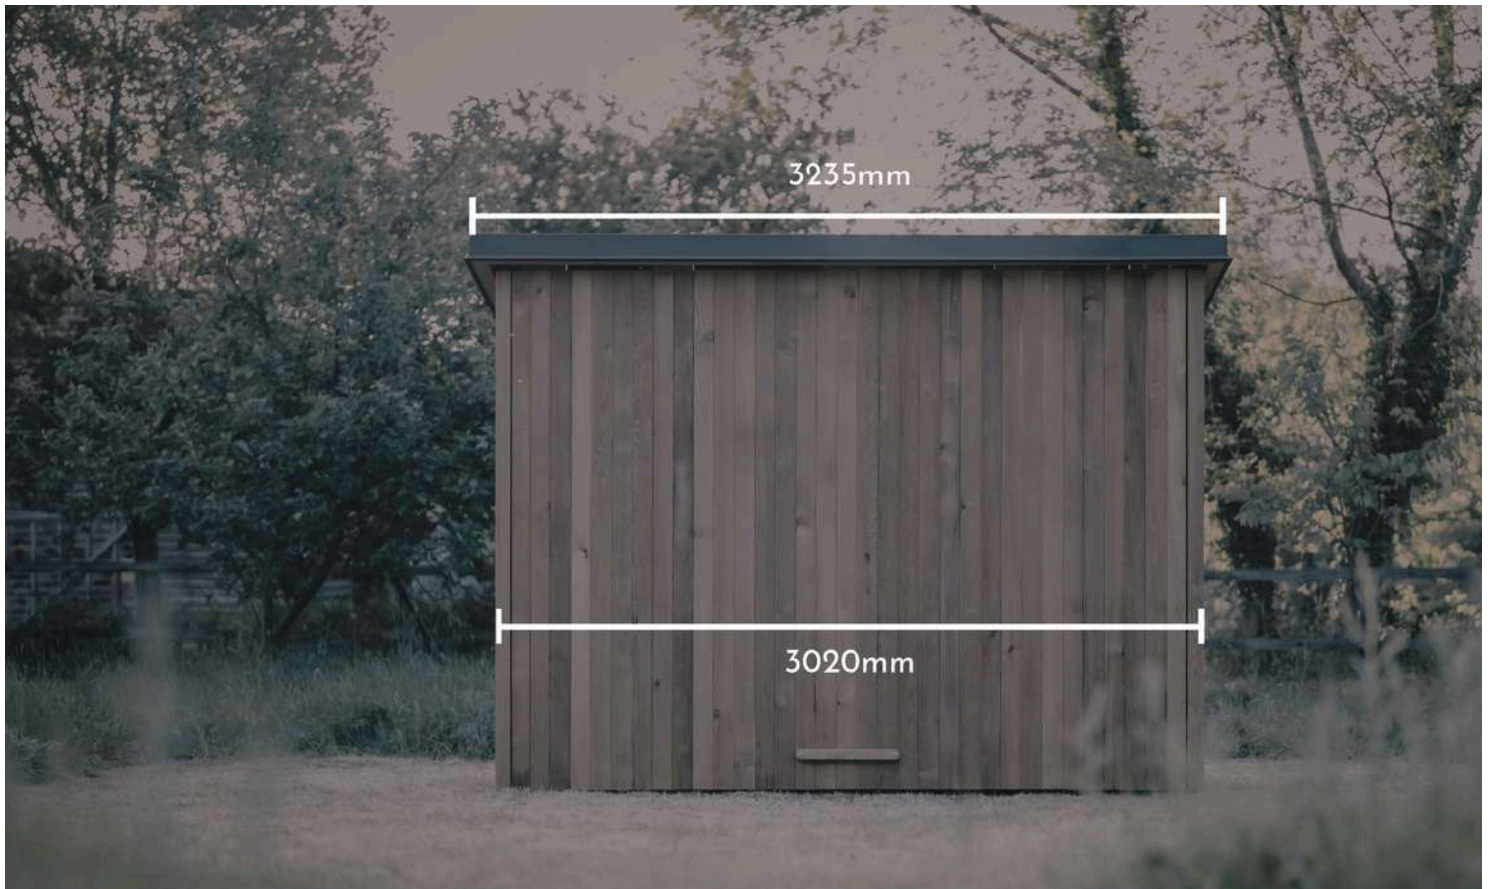

OUTDOOR HEATER

Our stylish heater means the evening doesn't have to end early. Enjoy warmth and comfort long after the sun goes down.

OUR COMMITMENT TO SUSTAINABILITY

Sustainability shapes everything we do — from design and construction to how we operate day to day. As a proudly local business, we're committed to reducing our environmental footprint and supporting the communities around us. By sourcing materials and labour locally, we cut down on the carbon emissions linked to long-distance transport and help strengthen our local economy. It's our way of ensuring the spaces we create are better for the planet — and for the people who live on it.

We're proud to support sustainability through our tree-planting initiative: for every Elevate pod we install, we plant a tree. More than just a symbolic gesture, this programme plays a meaningful role in carbon offsetting and long-term environmental restoration. It's our way of giving back — and helping shape a greener, more sustainable future for everyone.

Furthermore, our Cambridgeshire workshop is powered by solar panels installed on the workshop roof, generating enough energy to run our machinery, while energy-efficient LED lighting helps reduce overall consumption.

This considered approach runs through everything we do, creating products that are built to last and made with care for the environment.

TALK TO A MEMBER OF OUR TEAM

You can arrange to speak to a member of the Elevate team - at a time and day that works for you - on the telephone or via a video call.

A telephone or video call with one of our experts is the perfect opportunity to find out more about Elevate and ask any questions that you have. During the call, we'll provide you with everything you need to know about the product and the delivery & installation process.
